

INGLÉS I

Unidad 2 | Clase 5 **Reading and Grammar**

💧 Warm-Up Activity: Talking About Famous Programmers

1. Pair or Small Group Discussion

Discuss these questions with a partner or small group. Then share your ideas with the class.

Do you know the name of any famous computer programmers?

Have you heard about any women in programming or technology?

What do you think a software engineer did in the 1960s?

What is the most important quality a programmer should have?

Look at the picture below. Do you know this woman?

Margaret Hamilton: The Woman Who Sent Us to the Moon

Margaret Hamilton was born in 1936 in Indiana, USA. She studied mathematics at the University of Michigan and later at Earlham College. After she graduated, she **worked** as a schoolteacher for a short time.

In the 1960s, she **joined** the Massachusetts Institute of Technology (MIT). There, she **developed** software for NASA's Apollo space program. Margaret and her team **designed, tested, and programmed** the code that helped astronauts land on the Moon.

She **used** punch cards and very simple computers, but she **managed** to create software that was reliable and safe. During the Apollo 11 mission, the software **detected** a problem and **prevented** an accident. Thanks to her work, the mission **succeeded**.

Margaret Hamilton **founded** her own software company later in life and **continued** to support women in science and technology. In 2016, President Barack Obama **awarded** her the Presidential Medal of Freedom.

☒ **True / False Activity**

Read the statements below and write T (True) or F (False):

Margaret Hamilton studied mathematics at a university.

She worked at NASA right after finishing school.

She and her team created software for the Apollo space program.

The software she wrote caused an accident during Apollo 11.

She started her own software company later in life.

She received an award from the U.S. president in 2016.

Key: 1 T- 2 F- 3T -4 F- 5T- 6T

Post-Reading Activity: Write About It

Your Opinion – Reflect and Write

Do you think Margaret Hamilton was a pioneer? Why or why not? Answer the question in 3–4 sentences.

Complete the sentences with information from the text.

Margaret Hamilton _____ mathematics at university.

She _____ software for the Apollo space program.

Her software _____ a serious problem during the mission.

She _____ her own software company.

In 2016, she _____ an important award.

The verbs in the sentences above are written in Past Simple.

We use the Simple Past tense to refer to finished, complete actions in the past that are not connected to the present.

In English the verbs are classified into “regular verbs” or “irregular verbs”.

We form the past tense by adding -ED to the regular verbs.

Example:

Margaret Hamilton studied at university. She worked for the NASA.

Take this into account!

PAST -ed SPELLING
test-english.com

INFINITIVE

- watch
play
- like
arrive
- study
try
- stop
rob

PAST

- watched
played
- liked
arrived
- studied
tried
- stopped
robbed

SPELLING

- ➔ general rule
add **-ed**
- ➔ after **-e**
add **-d**
- ➔ after consonant + **-y**
delete **-y** and add **-ied**
- ➔ consonant + vowel + cons.
double consonant + **-ed**

POSITIVE

I	{	worked
You		
He		
She		
It		
We		
They		

NEGATIVE

I	{	did not work didn't work
You		
He		
She		
It		
We		
They		

QUESTION

{	Did	I	{	work?
		you		
		he		
		she		
		it		
		we		
		they		

SHORT ANSWER

{	Yes,	{	I	{	did.
			you		
he					
she					
it					
we					
they					

{	No,	{	I	{	did not. didn't.
			you		
he					
she					
it					
we					
they					

! NEGATIVE

☒ He didn't went.
☒ He didn't go.

! QUESTION

☒ Did she worked?
☒ Did she work?

Now, let's do the exercises on these links:
