INGLÉS I

Unidad 2 | Clase 7 **Grammar**

What can you say of Python and JavaScript?

Read the following text and discuss it.

📓 Python or JavaScript?

Python and JavaScript are two of the most popular programming languages today.

Python is **easier** to learn **than** JavaScript. Its code is **clearer** and **more readable**. For many beginners, Python is the best language to start with.

JavaScript is **faster** in the browser and **more useful** for building interactive websites. It is the most common language for front-end development.

Both languages are important, but they are good for different tasks. Python is **better** for data analysis and machine learning, while JavaScript is **better** for web design.

Many developers say that learning both is the smartest choice.

Let's see…

1. Is Python easy to use? And JavaScript? What word does the author use to compare them?
2. What about the code? How can you compare it to JavaScript?

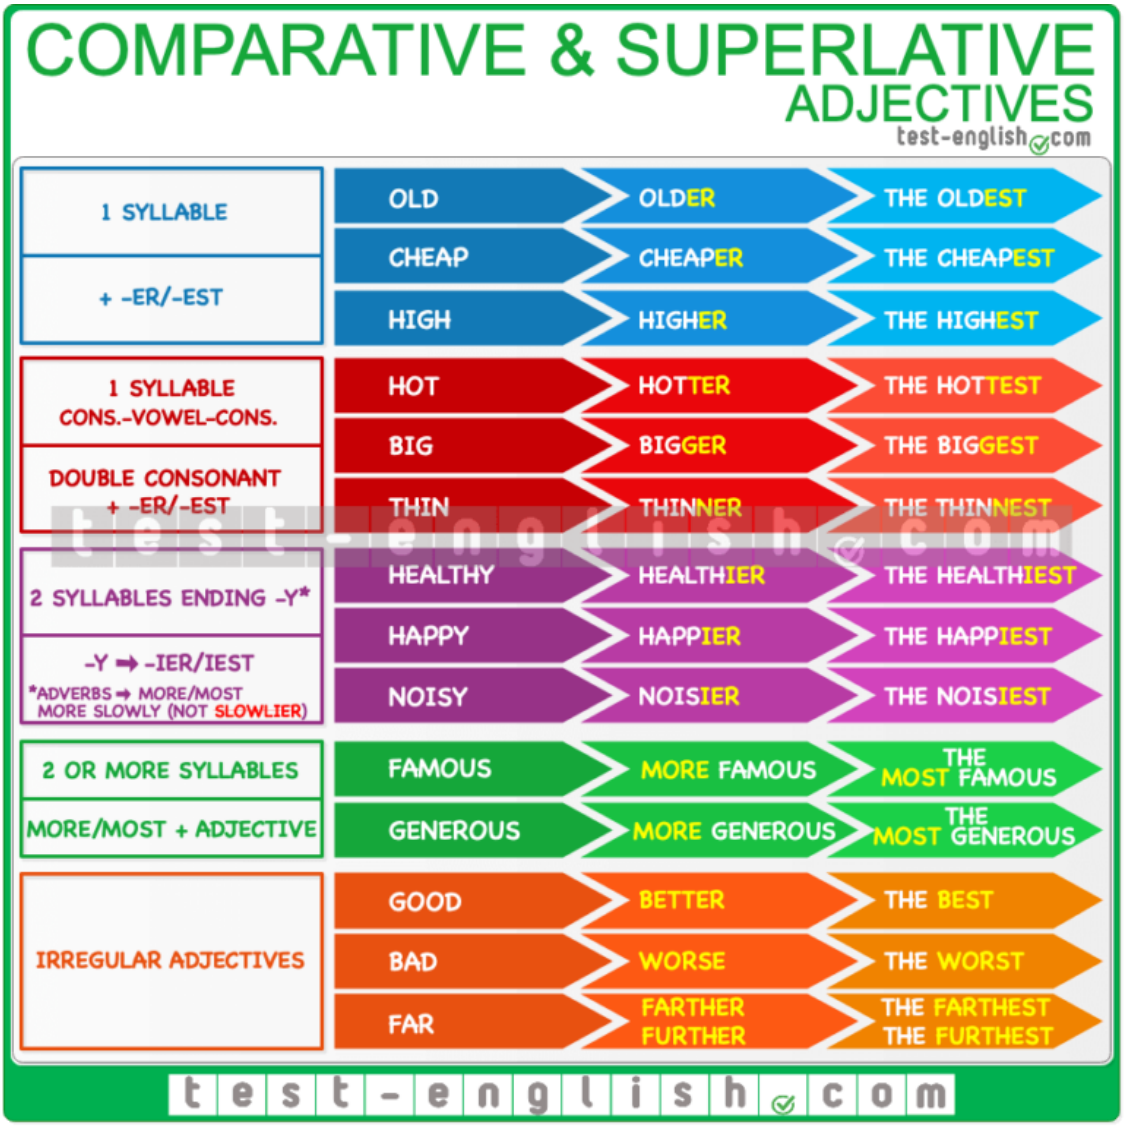

Taking a look at the highlighted words in the text, what do we add to the adjectives when we want to compare 2 languages, persons, places, etc?

What do we need to add to longer words?

What comes after the adjective in its comparative form?

Good. Now, when we want to compare not only two languages, but one among three or more languages, what changes do we need to make to the adjectives? See the underline words in the text for help.

So, in conclusion:

Comparative adjectives

Two things

We use the comparative form of an adjective to compare two things. When we compare three or more things, we use the superlative form of the adjectives.

- *White meat is **healthier than** red meat.*
- *Travelling by bus is **more comfortable than** travelling by train.*

Not as … as

*We can also use the form (**not**) **as** + adjective + **as**.*

- *Peter isn't **as considerate as** Marta. (= Marta is more considerate)*

Much/a lot/a bit more

*Before the comparative (**more** or **–er**), we can use **much**, **a lot** or **a bit**.*

- *He's **a bit taller** than me.*
- *Florence is **much more interesting** than Pisa.*
- *My car is **a lot more expensive** than yours.*

Superlative adjectives

Three or more things

We use the superlative form of an adjective or adverb to compare three or more things.

- *Both John and his brother play football, but John is **better**.*
- *John and his two brothers all play football, but John is **the best**.*

The best in

*After the superlative, we use **in** before names of places or before singular words referring to groups of people (**class, school, team, family, etc**.)*

- *The Everest is the highest mountain **of the world**.* ✖
- *The Everest is the highest mountain **in the world**.* ✔
- *She is the best student **in the class**.*
- *He's the tallest **in the family**.*

The best I've ever…

*We often use a superlative adjective with the present perfect tense of a verb and the word **ever**.*

- *This is **the best movie I've ever watched**.*
- *She is **the most beautiful woman I have ever seen**.*
- Now, let's practise!

🖉 Grammar Focus: Comparatives and Superlatives

A. Complete the sentences using the correct form of the adjective in brackets. Use a comparative or a superlative.

1. Python is _____ to learn than JavaScript. (easy)
